

ANNUAL REPORT
ADJUTANT GENERAL'S DEPARTMENT
STATE OF NEW MEXICO

31 December 1947

Because of the peculiar conditions existing in this Department since the close of World War II, it is deemed necessary to cover in this report a brief relation of the activities in this Department from 1 May 1946, at which time the undersigned assumed the duties of The Adjutant General, to 31 December 1947.

The allocation of National Guard troops to the State of New Mexico by the War Department (National Guard Bureau) was accepted in April 1946 by the Governor of New Mexico. The acceptance of this allocation, in a strength of 4028 officers and men, was made contingent upon (a) the adoption of Universal Military Training, and (b) Federal assistance in an armory construction program. National Guard prewar strength in this State approximated 1500 officers and men.

The New Mexico State Guard, which had been active throughout the war years, was inactivated 30 June 1946. All property accounts have been closed and a final settlement negotiated with the Federal government, without cost to the individuals in the State Guard or to the State. Few states have to date reached a final settlement in these matters.

After exhaustive study it was decided to allot National Guard units to communities in the State as follows:

<u>Allocation of Units</u>	<u>City</u>

These allocations provide what is believed to be the best grouping.

Because of conditions existing at Washington, it was not possible to proceed with the organization of units of the New Mexico National Guard until March 1947. Until that time, a great deal of preliminary work had been done by this Department. This "plowing of the ground" made it possible for us, later on, to organize rapidly once we were given a go-ahead signal by the National Guard Bureau.

On 19 March 1947 State Headquarters and Headquarters Detachment, New Mexico National Guard, and Headquarters, 111th AAA Brigade were inspected for Federal Recognition at Santa Fe.

Effective 1 April 1947 the office of the United States Property and Disbursing Officer was moved from Santa Fe to Albuquerque, occupying facilities at Kirtland Field secured by this Department on a revocable permit from the War Department.

Effective 1 April 1947 the offices of The Adjutant General's Department were moved from the Public Welfare Building to facilities at Bruns Hospital secured by this Department on a revocable permit from the War Department.

Organizational activities for the first half of the calendar year were completed as follows:

Troop strength as of 31 December 1947:

Officers and Warrant Officers - - - - 165

Enlisted Personnel - - - - - -1,081

Total 1,246

It should be noted here that New Mexico placed sixth in the nationwide recruiting campaign, "Operation 88,888", conducted by the National Guard Bureau, 16 September - 16 November 1947. During that period we increased the strength of the New Mexico National Guard 823. This figure is 155% of the quota assigned the State for "Operation 88,888".

The need now is for adequate housing for National Guard units in the State. No armory facilities are available at Clayton, Portales, Artesia, Hobbs, Lordsburg, Belen, Farmington, Carlsbad or Hot Springs. Units organized in these communities are presently housed in whatever makeshift facilities could be leased or rented.

Existing armories at Las Cruces, Roswell, Las Vegas and Albuquerque are not adequate for the units allocated thereto. At Las Vegas and Albuquerque the situation has been solved temporarily by housing units in State-owned or State leased war-time facilities.

A realistic approach to this problem must be made by the next legislature. There is a possibility that Federal aid may be made available. This Department will prepare a suggested program for consideration by the next legislature.

There follows a statement of the receipts and disbursements of this Department for the calendar year 1947.
